EDUCATION

University of Massachusetts Amherst, Amherst, MA

May 2026

Bachelor of Science in Computer Science

GPA: 3.2

Relevant Courses: Data Structures & Algorithms, Computer Systems, Objected-Oriented-Programming

TECHNICAL SKILLS

Frontend | React.js, JavaScript, HTML5, CSS3

Backend | MongoDB, Express.js, Node.js, PostgreSQL, MySQL

Developer Tools | Git, npm

Other Programming Languages | Java, Python, C, C++, C#

WORK EXPERIENCES

Niji Sushi Store, Keene, NH

June 2024 - August 2024

Operations Assistant

- Managed kitchen machinery and inventory levels, and maintained financial records daily to ensure accurate operations.
- Coordinated employee schedules, and provided customer service enhancing overall customer loyalty and satisfaction.

Serene Villa, Kalaw, Myanmar

May 2023 - September 2023

Client Services Assistant

- Managed and created social media updates to target certain customers and responded to customer inquiries, ensuring flexible communication.
- Organized bookings and accommodations, and handled maintenance schedules for guest satisfaction.

Shwe Thone LTD, Yangon, Myanmar

June 2022 - August 2022

Property Management Intern

- Contributed to the management team by organizing property viewings, encountering several client interactions, and updating property records daily for accurate tracking.
- Ensured up-to-date information in the market to attract potential clients, and participated in basic marketing strategies.

PROJECTS

Threads App

June 2024

Individual Developer | Independent Project

TypeScript | Next.js | MongoDB | CSS3

- Programmed a thread creation feature using TypeScript and React Hook Form, enabling users to create new discussion threads and manage profiles with secure form validation and submission.
- Developed a responsive user interface with Next.js, integrating server-side rendering for efficient data fetching and real-time thread updates, resulting in a smooth and interactive user experience.
- Github:** <https://github.com/arkthekid/threads.git>

Tic-Tac-Toe Game

June 2024

Individual Developer | Independent Project

Python | PyQt5

- Programmed a tic-tac-toe game using Python that allows the user to play against another player, an easy bot that randomizes moves, and a hard bot that uses the minimax algorithm to find the optimal move.
- Github:** <https://github.com/arkthekid/tic-tac-toe.git>

Weather App

June 2024

Individual Developer | Independent Project

JavaScript | HTML5 | CSS3

- Programmed a weather app using JavaScript to fetch and display current weather data based on user input, and designed a responsive user interface with HTML5 and CSS3.
- Github:** <https://github.com/arkthekid/weather-app.git>
